Congratulations to the 2018-2019 Donaldson Fellows

Yale SOM recognizes the importance of leadership in advancing women in business. This year, the Yale SOM Alumni Association and the Yale School of Management have named two Yale SOM women who are leaders in their respective industries as the 2018-2019 Donaldson Fellows: Amanda D. McElveen ’09 and Jessica R. Thompson ’09.

Are you a professional returning from a voluntary break of 2+ years? United Technologies is seeking applicants for the UTC Re-Power Program.

The Yale SOM Career Development Office (CDCO) will be hosting an informational chat event on Tuesday, December 11th, 3:00 to 4:00 Eastern.

The 2019 Cohort will run from January 29, 2019 – May 17, 2019. There are opportunities across multiple functions across several domestic locations.

For more information on job postings from the CDCO, please visit our job board.

The newly named Donaldson Fellows are: Amanda D. McElveen ’09 and Jessica R. Thompson ’09.

At the end of the month and into 2019, we encourage you to reflect on and celebrate what you have accomplished. It’s also a great time to set intentions for what to work towards in the New Year.

Our alumni community is a great place to connect and learn from one another. Please join us in New York City and San Francisco for our annual alumni events.

Here’s to a new year filled with inspiration and joy! Happy Holidays from all of us at Yale SOM!

2018 Nobel Laureate William Nordhaus, Sterling Professor of Economics at Yale, to create an internal pricing mechanism for Yale University’s Internal Carbon Charge Experiment.

When Yale University decided to curb its carbon emissions, it turned to 2018 Nobel Laureate William Nordhaus, Sterling Professor of Economics at Yale, to create an internal pricing mechanism for Yale University’s Internal Carbon Charge Experiment.

Others have sought to influence climate policy through investment screening or by governmental policy makers have turned to carbon pricing as a mechanism for combating climate change. While Yale’s experience is unusual for an organization, Yale SOM's Cindy Cornell, Inclusion and Diversity Director, offers her thoughts on the choices organizations face when it comes to carbon pricing.
